Future-Proof Investment

The Emerald Integrated Communications Exchange (ICE) is Tadiran's fully integrated digital phone system loaded with sophisticated features providing powerful, scalable technology at an extremely affordable price. The Emerald ICE paves the way for your future by combining functionality and value, allowing you to add capacity as your business needs grow. All this in a package that is easy to use, the Emerald ICE is ideally equipped to help your company project a professional image with minimal investment.

The digital Emerald ICE key system has a base configuration of 6 analog CO Lines, 10 Digital Stations and 2 Analog Ports, with expansion cards to allow you to grow to 24 CO Lines, 46 Digital Extensions, 18 Analog Station Ports.

Affordable . . . Sophisticated . . . Intelligent

Tailor the System to Custom Fit your Business

With hundreds of standard and advanced features, the fully digital Emerald ICE key system is ideally equipped to help your company process and manage your telecommunications requirements professionally and affordably. Its comprehensive feature set can include:

Integrated voicemail. Eliminate worries about losing calls or missing opportunities with Tadiran's Emerald ICE advanced 8-port voicemail featuring auto attendant, dial by name directory and flexible message handling. You get all this and a whole lot more without sacrificing any digital or analog extension ports!

Audio Help User Guide. Increase productivity by quickly training employees with step-by-step audio instructions on how to use such features as Conference, Call Forward or Overhead Page. The Audio Help User Guide guides you through the many features of the Emerald ICE with intuitive audio voice prompts, eliminating valuable time spent searching through manuals.

One Touch Features. Designed to be easy to use, many features like transferring a call, joining a conference or picking up another ringing extension can be done with a single button press.

Caller ID. See who is calling every time with caller ID information displayed on telephone sets.

Answering Machine Emulation. Listen to a caller leaving a voice message with the ability to retrieve the call while the message is being left.

Call Recording Capabilities. With the optional voicemail system, all calls can be recorded and stored in your personal voice mailbox.

Emerald ICE - Flexibility and Value

3 position desk pedestal and wall mount bracket

High contrast display

Interactive softkeys to assist in daily operations

Dual color status indication light

Audio Help User Guide guides users through complex features

Headset button

28 dual-color LED programmable buttons
